It powers on and paper passes through it the way it should but it was plain printing paper not the copy paper that is used with it. I bought it at a local college's surplus sale and don't really know much about it. Transparency maker is in normal used physical condition with signs of wear consisting of scuffs and scratches. However, unit does power on. Paper will advance until damaged belt stops further advancement as it hit the roller. Everything looks damage free with the exception of the belt. Good sources for bulb replacement. Where do you find. I can't even find where the light is to find out if the connection was loosened during shipping. Light comes on and appears orange in color, which is different from my Vistafax. Do you think it is the bulb? It's a. I'm in the same boat. I need part that makes the machine shut off. Hello, I rebuild these machines. I don't think you need any parts to fix. How do I fix this problem Please and THANKS. Software, cables, manuals, or accessories. You're looking at 1x JUST Normlicht Color Smart Light 5000 Transparency Light Flat Viewer 15 x 10. Very little scuffs, scratches, or wear. East Hartford, CT 06108. This has been tested to power on only. We do not have the stencil paper to perform any further testing. It does feed through standard paper smoothly. It powers on and paper passes through it the way it should but it was plain printing paper not the copy paper that is used with it. Please Fully Read our Policy. I bought it at a local college's surplus sale and don't really know much about it. Transparency maker is in normal used physical condition with signs of wear consisting of scuffs and scratches. Could use a new belt to be perfect but is fully functional as is. Use for tattoo stencils or make silk screens with products available from Welsh products. Amazing condition for a machine of this vintage. The seller is "mauicole" and is

located in Kula, Hawaii. This item can be shipped worldwide. Bookmark the permalink. Something went wrong. <http://ecoledegourmets.com/userfiles/comag-fta-2ci-manual.xml>

The Product Discontinuance Notification PDN, published at the start of the discontinuance process, will include all EOL Key Milestone details. Some business units may communicate EOL timeline details before the PDN is published. Contact your Intel representative for information on EOL timelines and extended life options. The processor base frequency is the operating point where TDP is defined. Frequency is typically measured in gigahertz GHz, or billion cycles per second. Refer to Datasheet for thermal solution requirements.

Product certification and use condition applications can be found in the Production Release Qualification PRQ report. See your Intel representative for details. ECC memory is a type of system memory that can detect and correct common kinds of internal data corruption. Note that ECC memory support requires both processor and chipset support. Processor graphics operates on the same physical memory as the CPU subject to OS, driver, and other system limitations. Peripheral Component Interconnect Express or PCIe is a highspeed serial computer expansion bus standard for attaching hardware devices to a computer. The different PCI Express versions support different data rates. The value shown represents which Intel's instruction set this processor is compatible with. These can include SSE Streaming SIMD Extensions and AVX Advanced Vector Extensions. C0 is the operational state, meaning that the CPU is doing useful work. C1 is the first idle state, C2 the second, and so on, where more power saving actions are taken for numerically higher Cstates. An ondie Digital Thermal Sensor DTS detects the cores temperature, and the thermal management features reduce package power consumption and thereby temperature when required in order to remain within normal operating limits. We refer to these processors as boxed processors. They typically carry a threeyear warranty. We refer to these processors as boxed processors. They typically carry a threeyear warranty. Intel refers to these processors as tray or OEM processors. Intel doesnt provide direct warranty support. Contact your OEM or reseller for warranty support. Please submit your comments, questions, or suggestions here. You will receive a reply within 2 business days. Thank you for your feedback. Your name and email address will not be added to any mailing list, and you will not receive email from Intel Corporation unless requested.
